RUTH—A HARDY CARNATION

RUTH

A Hardy Carnation

Hot House Carnations are expensive. Here is a Carnation that will grow out of doors in the summer time and bloom from the early days of Spring till late in the Fall.

SHAPE AND SIZE

This Carnation is the shape of Hot House Carnations. It is not quite so large but this is accounted for by the fact that the blooms are so profuse that they can not grow to any large size.

COLOR

The color is a glowing red. The most gorgeous of any flower yet introduced. It resembles in color the famous scarlet Geranium S. A. Nut, but is much more effective than it and when once it becomes known, will produce more of a furor than did that famous Geranium.

FRAGRANCE

No Carnation has yet been produced that can compare with this flower in fragrance. It has that spicy pungent odor that makes you forget all else but the flower.

TIME OF BLOOMING

The plants begin to bloom as soon as the warm days come and continue to bloom abundantly till the heavy frosts of Winter, when you can take the plant inside your home if you wish and it will bloom all winter. Left outside they are perfectly hardy and come on again with the next spring to give you good cheer.

NEW PLANT

This Carnation is a new plant and the supply is limited. We are not asking a large price for this grand new plant. Until our supply for this season is exhausted we will furnish them in potted plants, that will bloom the first year at 25c each.

CERTIFICATE OF INSPECTION

"Our Nurseries are annually inspected by State authorities and continually by ourselves. A Certificate of Inspection testifying to the freedom from disease is attached to every shipment of our stock."

STRAWBERRY TREE, EUONYMUS ALATUS or WINGED WAHOO

This shrub has cork bark and the cork sets in such a way on the stem as to make almost a square. The plant itself is very odd. The flower is yellow in color and as soon as the flower is gone large quantities of Red berries appear and these remain almost the entire winter. The leaf is beautiful at all times but as autumn approaches, the leaves take on all the beautiful colors and tints that are required to make the plant the most beautiful of all plants at that season of the year.

A JAPANESE SHRUB

Euonymus Alatus is a Japanese shrub and we consider it one of the best from that country. Plants we offer are 2ft. plants imported direct from Japan. Price \$1.25 each.

TERMS OF SALE, ETC.

Shipping—Aurora is forty miles from Chicago, on three lines of railway and the Outer Belt Line, giving us direct communication with all the trunk lines entering Chicago. Our shipping facilities are unexcelled.

Substitution—We will try to supply exactly the goods ordered, but should we be unable to do so, will send similar sorts unless order specifies, "No Substitution."

Guarantee—While we exercise the greatest care to have all trees, shrubs and plants sold by us true to name and free from disease, and hold ourselves prepared to replace, on proper proof, all that may prove to be otherwise, we do not give any warranty, expressed or implied, with respect to them. Any and all such goods are sold upon the express condition and understanding that in case any of them prove to be untrue to name, unhealthy or otherwise defective, we shall not be held responsible for a greater amount than the original price of the goods.

Terms—Our terms are cash with order.

Goods Sent C. O. D.—When you wish goods sent C. O. D., please favor us with at least one-fourth of the amount of the order.

No Charge for Packing and all stock will be delivered to the railroad or express office.

How Best to Remit—Remit by Bank Draft, Postoffice or Express Money Order or Registered Letter.
